**RAM**  
COMMERCIAL

DEALER ePROCESS

# RAM PROMASTER

## BUILT FOR WORK

Built from the ground up to be a dedicated work van, Ram ProMaster® is a master of all trades. The 2024 lineup brings impressive levels for durability, efficiency, advanced technology, connectivity, and Safety and Security features.

With four cargo lengths, three available weight classes, three wheelbases, three roof heights, an upfitter-friendly open cargo area and a powertrain engineered to withstand long hauls, this is the business partner you can trust and rely on.

DEALER ePROCESS

MORE THAN JUST A  
**CONFIDENT LOOK**

**MODERN TAKE ON INDUSTRIAL STRENGTH.** The 2024 Ram ProMaster® sports a bold front fascia and grille, which includes standard quad-halogen reflector headlamps that are 28 percent brighter with 15 percent more range versus the previous generation headlamps and fog lamps. The three-piece front fascia was constructed with the headlamps positioned out of the low-speed collision zone to minimize repair costs. A standard modular bumper with integrated step-to-assist makes changing wiper blades and cleaning the windshield easy.

ROOM FOR MORE WITH THE  
**AVAILABLE SUPER HIGH ROOF**

DEALER APPROVED

Available in three roof heights, including a convenient Super High Roof configuration available in 159-inch wheelbase or the 159-inch wheelbase with extended load floor (shown here), Ram ProMaster® delivers colossal cargo volume and impressive interior cargo height. The Super High Roof configuration on Cargo Van adds 10 inches of head room when compared to the next closest configuration. Not only does this boost cargo volume, but it makes for abundant head room when working in the back of the van.

RAM PROMASTER®: SAFETY AND SECURITY ASSISTANCE TO HELP  
**KEEP YOUR BUSINESS ON THE MOVE**

**AN ABUNDANCE OF SAFETY AND SECURITY FEATURES.**

Technology will continue to evolve, and you can count on Ram ProMaster to keep pace. A wide array of standard and available features work together to create the maneuverability to help navigate jobsites and tight city streets.

DEALER ePROCESS

Available  
360° SURROUND-VIEW CAMERA SYSTEM<sup>2</sup>

Available **BLIND SPOT MONITORING (BSM)<sup>3</sup>** with **REAR CROSS-PATH DETECTION<sup>2</sup>** AND **SIDE-MIRROR NOTIFICATION SIGNAL LIGHT**

Available **PARALLEL AND PERPENDICULAR PARK ASSIST<sup>4</sup>**

Available **PARKSENSE® FRONT AND REAR PARK ASSIST<sup>4</sup>**

STANDARD PARKVIEW® REAR BACK-UP CAMERA<sup>2</sup> with DYNAMIC GRID LINES

STANDARD FULL-SPEED FORWARD COLLISION WARNING PLUS with PEDESTRIAN/CYCLIST EMERGENCY BRAKING<sup>5</sup>

STANDARD TRAFFIC SIGN RECOGNITION<sup>6</sup>  
(optional color cluster shown)

STANDARD DROWSY-DRIVER DETECTION<sup>7</sup>

## SURROUNDING TECHNOLOGY TO ENHANCE YOUR CONFIDENCE

### ADVANCED TECHNOLOGY AT YOUR SERVICE.

Thanks to a suite of standard and available Safety and Security systems, the risk of an unexpected incident may be reduced as technology warns the driver of potential hazards. This van's protection plan includes the standard and available features that can help recognize traffic signs, detect a drowsy driver, assist with speed control and apply the brakes if needed.

STANDARD CROSSWIND ASSIST

Available BLIND SPOT MONITORING (BSM)<sup>3</sup> with REAR CROSS-PATH DETECTION<sup>2</sup> AND SIDE-MIRROR NOTIFICATION SIGNAL LIGHT

Available  
DIGITAL REARVIEW MIRROR

Available  
**PARALLEL AND PERPENDICULAR PARK ASSIST.<sup>4</sup>**

This is parking made simple. Along with available ParkSense<sup>®</sup> Front and Rear Park Assist<sup>4</sup> to help with navigating tricky loading docks and confined worksites, the available Parallel and Perpendicular Park Assist<sup>4</sup> can help you with those tight parking spaces. The system is designed to provide guidance when parking by automatically controlling the steering while directing the driver to engage the gear position, brake and accelerator.

NO SURPRISES,  
**JUST CONFIDENCE**

Available  
**BLIND SPOT MONITORING (BSM)<sup>3</sup>  
WITH REAR CROSS-PATH DETECTION.<sup>2</sup>**

With dual wide-band radar sensors in the rear of the vehicle, the available BSM<sup>3</sup> with Rear Cross-Path Detection<sup>2</sup> scans the blind-spot zones behind the vehicle to help ensure safe maneuvering.

# FORWARD-THINKING CONFIDENCE

# BRAKE!

MONITORING THE AREA AHEAD

SENSING POSSIBLE OBSTRUCTION

## STANDARD FULL-SPEED FORWARD COLLISION WARNING PLUS (FSFCW+) WITH PEDESTRIAN/CYCLIST EMERGENCY BRAKING<sup>5</sup>

The FSFCW+ with Pedestrian/Cyclist Emergency Braking<sup>5</sup> system provides both audible and visual warnings to help alert the driver when it detects a potential frontal collision. The warnings are intended to help provide the driver with enough time to react to, avoid or mitigate the potential collision.

DEALER APPROVED

NO MORE OBSTRUCTED REAR VIEWS.

## SEE MORE, GET THE PICTURE

Available on all models, the 9.2-inch-wide LCD monitor **DIGITAL REARVIEW MIRROR** delivers real-time video from a rear-facing camera. The camera is located on the back of the van, so the view is unobstructed compared to a traditional rearview mirror. Unlike back-up cameras, the vehicle doesn't need to be in Reverse to activate, and the view is a high resolution. The camera view is also adjustable for brightness and can tilt up and down for better rear visibility.

RAM PROMASTER®:  
**TECHNOLOGY WITHIN REACH**  
DEALER ePROCESS

## **SAFETY AND SECURITY FEATURES**

### **STANDARD:**

- Daytime Running Headlamps
- Full-Speed Forward Collision Warning Plus with Pedestrian/Cyclist Emergency Braking<sup>5</sup>
- Traffic Sign Recognition<sup>6</sup>

### **AVAILABLE:**

- 360° Surround-View Camera System<sup>2</sup>
- 7-inch Full-Color Thin Film Transistor (TFT) Center Cluster Display
- Active Drive Assist System<sup>7</sup>
- Adaptive Cruise Control (ACC) with Stop and Go<sup>7</sup>
- Blind Spot Monitoring (BSM)<sup>3</sup> with Rear Cross-Path Detection<sup>2</sup>
- Digital Rearview Mirror with Auto-Dimming
- Drowsy-Driver Detection<sup>7</sup>
- Front Fog Lamps with Cornering Function
- Intelligent Speed Assist<sup>8</sup>
- LaneSense® Lane Departure Warning Plus<sup>9</sup>
- Parallel and Perpendicular Park Assist<sup>4</sup>
- ParkSense® Front and Rear Park Assist<sup>4</sup>
- Wide, Power-Heated Mirrors or Power-Folding, Heated Mirrors

#### MULTI-COLLISION BRAKING.

In the event that a collision does occur, this system moderately applies the brakes after impact to stop the vehicle from rolling and to help avoid a potential second collision. The system knows to trigger the brakes by interacting with the seat restraint modules, including whether an air bag<sup>10</sup> is deployed or if the fuel cutoff switch is activated. By applying the brakes right away, the system helps prevent further damage or injury that could occur through the continuing motion of the vehicle due to the collision. Standard.

#### INTELLIGENT SPEED ASSIST (ISA).<sup>8</sup>

Through a speed-sign-recognition video camera and/or GPS-linked speed limit data via the available navigation system, ISA<sup>8</sup> alerts drivers of the current speed limit and can automatically adjust the speed of the vehicle as needed. As the ISA<sup>8</sup> system reads changing speed limit signs, the throttle is adjusted to stay within the speed limit (or an acceptable +/- offset). Available.

#### LANESENSE® LANE DEPARTURE WARNING PLUS.<sup>9</sup>

Via its forward-facing camera, the Ram ProMaster® LaneSense Lane Departure Warning Plus<sup>9</sup> system is designed to identify the lines on the road. The system then determines where the vehicle is placed between the lines and monitors the vehicle's movement down the road. Available.

## RAM PROMASTER SAFETY AND SECURITY FEATURES

#### ADAPTIVE CRUISE CONTROL WITH STOP AND GO.<sup>7</sup>

The system uses a radar sensor and forward-facing camera mounted at the front of the vehicle to help detect objects in its path. If the lane ahead is clear, the system will maintain the set speed. When slower traffic is detected, the system is designed to automatically adjust to a preselected distance (which is selected by the driver) by using throttle control and limited braking. Available.

#### RAIN-SENSITIVE WINDSHIELD WIPERS.

A glass-mounted infrared sensor located near the rearview mirror continually sends infrared beams against the windshield to detect raindrops. Once detected, the system's control strategy signals the wipers to operate and adjusts wiper speed based on rain accumulation. Available.

#### AUTOMATIC HEADLAMPS.

A forward-facing camera and rain/dusk sensor can process images to detect oncoming or forward lights. When these components detect an approaching vehicle's headlamps, a preceding vehicle's taillamps or ambient light, the system turns off the high beams to minimize distraction to other drivers. Available.

#### FRONT FOG LAMPS WITH CORNERING FUNCTION.

Refinements in the relating lens elements help ensure wider spread light and improved accuracy when the steering wheel is turned and while turn signals are activated. As a result, the fog lamps are designed to provide additional illumination when cornering. Available.

#### HEAVY-DUTY ANTILOCK BRAKING SYSTEM (ABS).

All 2024 Ram ProMaster vehicles are equipped with heavy-duty brake systems that are designed to deliver impressive stopping power. Included are large-diameter-sized four-wheel heavy-duty disc brakes with thick pads for projected long-term durability. Standard.

#### ELECTRONIC STABILITY CONTROL (ESC).<sup>11</sup>

The Ram ProMaster ESC<sup>11</sup> features a sophisticated four-channel (independent control to all four corners of the vehicle) active handling system. The ESC<sup>11</sup> system links the vehicle's dynamic control systems to assist the driver in maintaining control under demanding or adverse conditions (such as wet, snow-covered or icy roads) and during tight turns and evasive maneuvers. Standard.

## THE RIGHT WIDTH FOR THE RIGHT FIT

Regardless of which 2024 Ram ProMaster® Cargo Van model you choose, fitting a standard pallet between the wheel wells won't be an issue. Need a shelf system? With an impressive interior width and near vertical walls, that won't be an issue either. The cavernous space inside ProMaster is also the perfect space for transporting equipment and materials or creating a mobile work area.

# CARGO MANAGEMENT, NO PROBLEM

## UP TO 17 AVAILABLE SIDEWALL AND FLOOR CARGO TIE-DOWNS.

Cargo Van models feature up to 10 in-floor D-rings to help secure cargo. Want more? Up to an abundant 17 floor and sidewall tie-downs provide stabilization and security for your cargo when you're on the move.

RAM PROMASTER®:  
**BUILT TO DELIVER**

Like a great coworker, Ram ProMaster makes light of heavy work with up to 524 cu ft of cargo capacity or a 4,820-lb maximum payload<sup>1</sup> and easy access to the cargo area.

When your job requires lots of parcel handling or final-mile delivery, a van with a rear roll door makes things easier. On extended High Roof models, opt for the anodized aluminum **ROLL-UP REAR DOOR UNIT** (late availability). Not only does it optimize access but weight and durability as well.

**EASE OF ENTRY**  
**21-INCH**  
LOAD FLOOR HEIGHT

AT ANY HOUR OF THE DAY,  
**THE IDEAL MOBILE WORKSTATION**

**AVAILABLE AMBIENT LED INTERIOR LIGHTING.**

Whether you're working during daylight hours or in the dark of night, having a well-lit workspace is important. Opt for the available Ambient LED Interior Lighting; it helps illuminate the footwells, dash trim, vehicle controls and more. Standard on SLT and SLT+ models.

# FOR ENTERTAINMENT OR ASSISTANCE, TECHNOLOGY AT YOUR FINGERTIPS

The standard Uconnect® 5 comes with a 7-inch touchscreen, while the available Uconnect 5 NAV features a 10.1-inch touchscreen with Navigation. Both technology hub options boast impressive processing power and dual smartphone wireless connectivity. They also feature personalization options, such as profiles that save your settings, useful home screen widgets and comfort control. These advanced and intuitive systems help you stay connected, informed and entertained while on the job.

## UCONNECT 5 WITH 7-INCH DISPLAY.

## THE CREW VAN PACKAGE FOR YOUR TEAM AND EQUIPMENT

### CREW VAN PACKAGE.

Room to take six to the jobsite is one thing; having enough room for passengers, their gear and materials is everything. The available Crew Van Package has comfortable, wide, three-seat bench seating; it also features the Mopar® Crew Van Kit, which includes a driver-side second-row fixed window and passenger-side sliding door with window. With the interior designed to accommodate underseat loading, longer items fit easily. Best yet, the durable fabrication is lightweight, which results in minimum sacrifice to the payload capacity.

- Up to six-person seating capacity
- Welcoming cabin climate control
- Minimal cabin noise

- Secure protection from shifting cargo
- Capable volume and payload area
- Partition with window

WHATEVER YOUR NEEDS,  
**WE HAVE A SEAT COMBINATION THAT FITS**

**BUCKET SEATS**

- Standard four-way adjustable driver seat with spring suspension. A passenger seat is available as a no-charge option
- Available six-way adjustable seats with manual lumbar support and available heated seating surfaces

**UP TO FIVE-PERSON SEATING**

- Add the available Crew Van Package

**THREE-OCCUPANT SEATING**

- Single driver bucket seat joined by an available integrated two-person bench seat
- The middle seatback insert folds down to become a convenient writing surface

**UP TO SIX-PERSON SEATING**

- Add the available Crew Van Package

**SWIVEL SEATING**

- Available swivel bucket seats with 180° inboard swivel range, 35° outboard swivel, a 58° recliner and a continuous height adjuster
- Increases space between seats with easier access to the rear cargo area

**UP TO FIVE-PERSON SEATING**

- Add the available Crew Van Package

# UPFITTING MADE EASY WITH SERIOUS FLEXIBILITY

**DEP**  
DEALER ePROCESS

**ARGUABLY THE MOST UPFITTER-FRIENDLY INTERIOR.** Intentional design for adaptability allows Ram ProMaster® to be upfitted for virtually every conceivable commercial need. A unique Front-Wheel-Drive (FWD) System means virtually all primary vehicle systems are packaged forward of the cargo area, which creates a more usable work area.

- Available LED Cargo Area Lighting

- Available left-side Sliding Door with fixed glass
- Available lower-side Wall Panels
- Available Wood Floor
- Rear Doors with available fixed glass

- Available Cargo Partition with sliding window
- Available left-side Sliding Door with fixed glass
- Rear Doors with available fixed glass

- Available Cargo Partition
- Available upper- and lower-side Wall Panels
- Available Wood Floor

# RAM PROMASTER® AUTHENTIC ACCESSORIES

**CARGO LOAD FLOOR.**<sup>17,18</sup> On its own, our limited factory-warranted<sup>19</sup> Cargo Load Floor is ideal, using a modular design that fits all models and invites add-on kits. Features include an anti-slip surface, aluminum entry-point ramps, two integrated floor rails, four side rails (two per side) plus perfectly fitting hardware for all of it. Available only as an upfit when initially ordering your Ram ProMaster Cargo Van. Learn more at [MOPAR.COM](http://MOPAR.COM)

**CARGO TIE-DOWN TRACK SYSTEM.** This is multitasking at its best. The load floor system includes two in-floor tracks and two side tracks—one on each wall. Fitting all tracks are four 5/16-inch carriage bolts and four L-Channel Quick-Connect rings to securely strap down cargo (straps not included).

# RAM PROMASTER® AUTHENTIC ACCESSORIES

When it comes to Ram ProMaster, not all parts and accessories are created equal. As the official provider for the Ram Brand, only Mopar® Parts and Accessories can offer the proper fit, finish and functionality. That's because they're original equipment, engineered by the same people who designed your vehicle, which means you can personalize your ride with complete confidence. # 3.6L PENTASTAR® V6

**276 HORSEPOWER** WITH  
250 LB-FT OF TORQUE

- Two-stage variable valve lift
- Variable Valve Timing (VVT)
- Cooled Exhaust Gas Recirculation (EGR)
- High-tumble intake ports

## ENGINE ENHANCEMENTS (OVER PREVIOUS VERSION)

- Increased compression ratio: 11.3:1
- Lower internal friction
- Reduced weight

HORSEPOWER	276 hp
TORQUE	250 lb-ft
CONFIGURATION	60° V6
DISPLACEMENT	220 cu in (3,604 cc)
BORE x STROKE	3.78 x 3.27 in (96 x 83 mm)
BLOCK MATERIAL	Aluminum deep skirt design
CYLINDER HEAD MATERIAL	Aluminum alloy
AIR INDUCTION	Naturally aspirated
VALVE TRAIN	Chain-drive DOHC, 24-valve
FUEL DELIVERY	Sequential, multiport injection
RECOMMENDED FUEL	Unleaded regular (87 octane)
COMPRESSION RATIO	11.3:1
ALTERNATOR	180-amp (220-amp available)
OIL CAPACITY	6 quarts
MAXIMUM RECOMMENDED OIL CHANGE INTERVAL	10,000 miles

+

**STANDARD  
9-SPEED  
AUTOMATIC  
TRANSMISSION**

- High efficiency in all gears and speeds thanks to nested carriers, dog clutches and advanced hydraulic control unit architecture
- A wide ratio spread brings outstanding launch characteristics and smooth transfer between gears
- Short mid-range gears help to ensure quick transitions, and higher gears—7th, 8th and 9th transitions—relate to help lower engine rpm speeds

# TECHNOLOGY FOR YEAR-ROUND CONFIDENCE

## ELECTRIC RACK AND PINION STEERING.

The Electric Power Steering (EPS) contains its own Electronic Control Unit (ECU) to monitor vehicle speed, torque applied (using the Dynamic Steering Torque (DST) system) to the steering wheel, and other variables to determine the level of steering assist needed at any given moment. Increasing the power to the power steering motor helps to reduce the driver's effort needed to turn the steering wheel lock to lock, which is especially helpful in tight parking or delivery situations. The convenient telescoping steering column is an unusual and welcome feature in the commercial world. We've made it standard on all models.

## ROBUST FRONT AND REAR SUSPENSION TECHNOLOGY.

In front, a MacPherson strut front suspension utilizes large, 62-mm, twin-tube shock absorbers for solid support of the powertrain. This system is enhanced with GVW-tuned cast iron control arms for impressive durability, road manners and handling—even under heavy loads. Rear suspension technology is a beam axle/leaf spring design that's light and simple yet robust.

## ANTILOCK BRAKING SYSTEM (ABS).

Our ABS controls and monitors each wheel independently. The high-performance brake system provides superb stopping power—notably, when trailering. Ram ProMaster® brakes even include electronic lining wear sensors that notify the driver (via an icon in the cluster) when pad replacement is imminent to help mitigate more expensive repairs.

## UNIBODY ENGINEERING.

A solid backbone is a designed-in advantage to the body-frame integral (unibody) engineering of your Ram ProMaster model, with each chassis mass-optimized and tuned for ideal performance. This integrated frame structure features boxed frame components, multiple crossrails and longitudinal rails—and all are crucially welded together. Depending on wheelbase length, you'll find up to eight tough structural crossmembers, giving every Ram ProMaster model the ladder-frame integrity that ensures proper stiffness and long-term durability.

## SURE-FOOTED FRONT-WHEEL DRIVE (FWD).

Advantages to FWD are substantial. It enables outstanding control—especially valuable in snowy climates. It also utilizes the weight in the front end to help ensure great front-tire "road grab." By dispensing with the fore-to-aft drivetrain employed by our competitors, FWD also functions as a direct contributor to the low load floor height.

EASY TO MANEUVER  
**36.3-FT**  
TURNING DIAMETER

DEALER ePROCESS

Small details can add up to a big convenience, like a tight 36.3-foot turning diameter (on 118-inch-wheelbase models). It's perfect for navigating crowded city streets, cramped loading docks or narrow back alleys.

RAM PROMASTER® CUTAWAY:  
**YOUR SPIN ON OUR BLUEPRINT**

Combine industrial-grade capability with the right upfit and your Ram ProMaster Cutaway is ready for the job. The numbers speak for themselves: 3500 weight class only, built on a 159-inch wheelbase. Max length of 250.6 inches. Heavy-duty tuned suspension with a MacPherson strut front unit. Muscular 9,350-lb GVWR<sup>22</sup> impressive 12,000-lb GCWR<sup>22</sup> and towing up to 5,600 lb<sup>21</sup> with payload up to 5,350 lb<sup>21</sup>! ## RAM PROMASTER® WINDOWED VAN: ADAPTABLE PEOPLE-MOVER CAPABILITY

Comfort, safety and security. You'll find these and more in our Windowed Van. Designed around the needs of people, it's available in 2500 and 3500 weight classes on the 159-inch wheelbase in your choice of two lengths. For optimum passenger comfort, the High Roof is standard. As with every Ram ProMaster, there is an abundance of upfit possibilities, plenty of cargo room and the solid power of the Pentastar® V6 engine.

If you require a Special Needs interior upfit, the flexibility of Windowed Van is your go-to solution. If additional power is needed, our available auxiliary switches can help handle the ancillary devices of ambulances, mobile medical clinics and DriveAbility Program applications.

1 Max payload/towing ratings shown are for base configuration. Additional options, equipment, passengers and cargo weight may affect payload/towing weights. Contact dealer for details. 2 Always check entire surroundings visually before proceeding. 3 Always check visually for vehicles prior to changing lanes. 4 Always look before proceeding. An electronic drive aid is not a substitute for conscientious driving. Always be aware of your surroundings. 5 This system is an alert system for the front of the vehicle. It is not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use the brakes to avoid collisions. 6 Traffic Sign Recognition is not a substitute for safe and attentive driving. Factors including weather and condition of the traffic sign can impact recognition and display of the sign. Always check traffic signs visually while driving. 7 This system is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use the brakes to avoid collisions. 8 This system is a driver convenience system, not a substitute for active driver involvement. Factors including weather and condition of the traffic sign can impact recognition and display of the sign. Driver must remain aware of traffic conditions and maintain control of the vehicle. 9 This system is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of traffic conditions and maintain control of the vehicle. 10 Always sit properly in designated seating positions with seat belts securely fastened at all times. 11 Always drive carefully, consistent with conditions. Always wear your seat belt and obey traffic laws. 12 Requires compatible iPhone. Contact dealer for phone compatibility. Data plan rates apply. Vehicle user interface is a product of Apple. Apple CarPlay is a trademark of Apple Inc. iPhone is a trademark of Apple Inc., registered in the US and other countries. Apple terms of use and privacy statements apply. 13 To wirelessly use Android Auto on your car display, you need a compatible Android smartphone with an active data plan. You can check which smartphones are compatible at [g.co/androidauto/requirements](http://g.co/androidauto/requirements). Android Auto is a trademark of Google LLC. 14 All vehicles properly equipped to receive connected services come with a three-month trial of Assistance Package or Assistance + Navigation Package (if equipped), up to five years of Vehicle Performance Package, and up to 10 years of Safety and Security Package effective from the date of purchase or lease of a new vehicle. Enrollment in trial is required to receive services. Upon expiration of trial period, purchase of a subscription is required to continue or renew services. Services are available on equipped vehicles purchased within the United States, Canada and Puerto Rico. Services can only be used where cellular coverage is available. See the applicable Terms of Service for complete terms and conditions, including service limitations. 15 App features may vary between vehicle, model year and the connected services available. 16 All SiriusXM services require a subscription, sold separately by SiriusXM after the trial period. Your SiriusXM service will automatically stop at the end of your trial unless you decide to subscribe. **If you decide to continue service after the trial, the subscription plan chosen will automatically renew and be charged according to your chosen payment method at the then-current rates.** Fees and taxes apply. See the SiriusXM Customer Agreement and Privacy Policy at [www.siriusxm.com](http://www.siriusxm.com) for full terms and how to cancel, which includes online methods or calling 1-866-635-2349. Available in the 48 contiguous United States, D.C., and Puerto Rico (with coverage limits and capable receiver). Visit [www.siriusxm.com/FAQS](http://www.siriusxm.com/FAQS) for most current service area information. Availability of some services and features is subject to device capabilities and location restrictions. All fees, content and features are subject to change. 17 Part numbers vary by wheelbase. 18 Available only at time of vehicle order. 19 Backed by the 3-Year/36,000-Mile Basic Limited Warranty. Visit [www.Mopar.com](http://www.Mopar.com) for complete details and a copy of the Basic Limited Warranty. 20 Check Owner's Manual for hitch type, load capacity and heavy-duty equipment required. Do not exceed rated tow capacity of the vehicle as equipped. Trailer may require

items not supplied by Mopar. 21 Not available for vehicles equipped with 118-inch wheelbase. 22 Assumes properly equipped vehicle and 150-lb allowance for driver. Additional options, equipment, passengers and cargo weight must be subtracted. See dealer for details. 23 Check state and local laws regarding the use of remote start systems. 24 Vehicle must be locked and system activated for alarm to sound.
